65th Annual Report of the Ontario Food Terminal Board For the Fiscal Year Ending March 31, 2019

The Ontario Food Terminal Board is a board governed Provincial agency created under the Ontario Food Terminal Act, R.S.O. 1990 Chapter O. 15 and its mandate is to acquire, construct, equip and operate a wholesale fruit and produce market in the City of Toronto or The Regional Municipality of York known in English as the Ontario Food Terminal and in French as Marché des produits alimentaires de l'Ontario and to acquire and operate such facilities for the transportation and handling of fruit and produce as may be necessary for the purposes of the Terminal; and to do such other acts as may be necessary or expedient for the carrying out of its operations and undertakings.

The members of the Ontario Food Terminal Board for the 2018/19 fiscal year were: Kenneth W. Knox was appointed as Chair on January 17, 2019. Mark Pearlman was first appointed as a member on November 15, 2006 and appointed as Vice Chair on August 31, 2017 with a term ending August 30, 2020. Larry Kieswetter was appointed as a member of the Board with a term of November 30, 2016 to November 29, 2019. Ian Mackenzie was appointed as a member of the Board with a term of March 8, 2017 to March 7, 2020. Margaret Appleby was appointed as a member of the Board with a term of August 31, 2017 to August 30, 2020, Lino Vittorio was appointed as a member of the Board with a term of October 4, 2017 to October 3, 2020 and Len Turkevics was appointed as a member of the Board with a term of January 31, 2019 to January 30, 2022.

Throughout the year, the Board has been working diligently to continuously support Ontario's important agricultural industry and maintain the vital contribution that the Ontario Food Terminal provides to Ontario's economy. The Board ensures that the Terminal operates efficiently and is maintained in order to provide excellent customer service to Ontario Growers, produce buyers, retailers and institutions and that they continue to use the Terminal as a major source of supply of fresh fruits, vegetables and horticultural products. The Terminal also provides Ontario Farmers and produce distributors a wholesale channel where they can distribute and market their fresh fruits and vegetables to the thousands of businesses in the food and horticultural industries.

The Ontario Food Terminal Board will continue to be self-sustaining to cover all expenses including capital and maintenance expenses. As well as, continue the good

work in meeting all of MOU and ADD provisions and requirements. The Board has begun work on developing its strategic plan and will have it completed during the third quarter of its fiscal year 2019/20.

The Board had a net income of \$1,180,764 in the 2018/19 fiscal year compared to a net income of \$1,346,485 in 2017/18 fiscal year. The main reason for the decrease in net income was a result of higher expenses in the 2018/19 fiscal year as compared to the 2017/18 fiscal year. The Board experienced higher expenses than budgeted in the following line items; salaries expense, operating supplies, repairs and maintenance, waste removal, and insurance costs. The Board continued to have another successful year and has met and exceeded its overall financial revenue targets by \$681,077 which helped to offset the increase in operating expenses when compared to the Board's annual budget. Capital expenditures for the year totaled \$5,549,579.

The volume of fruit and produce distributed through the Terminal for the 2018/19 fiscal year was approximately 1,058,039 tons (2.1 Billion Pounds), which was a slight increase of .004% from the 2017/18 fiscal year. The share of Ontario grown produce sold at the Terminal accounts for approximately 35% to 40% of the total. The Board is continually promoting the entire facility, including the farmers' market, through its website, social media, trade shows, Foodland Ontario, and tours. As a result, the Board has met its target of getting more buyers to make purchases in the farmers' market.

The Terminal continues to be the main source of fruit and produce for the independent grocery trade in Ontario. The Terminal is a competitive wholesale market which allows the 5,000 buyers to purchase high quality produce from 20 warehouse and 350 Ontario farmer tenants. There are approximately 400 different varieties of produce sold at the Terminal with approximately 150 of these grown locally.

I would like to thank both my fellow directors on the Board, the Terminal tenants, the Terminal employees, the suppliers of goods and services to the Terminal and the many buyers for helping make the Board's 2018/19 fiscal year a success.

Management's Responsibility for Financial Statements

The accompanying financial statements of the Ontario Food Terminal Board have been prepared in accordance with Canadian public sector accounting standards and are the responsibility of management. The preparation of financial statements necessarily involves the use of estimates based on management's judgement, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods. The financial statements have been properly prepared within reasonable limits of materiality and in light of information available up to December 11, 2019.

Management maintains a system of internal controls designed to provide reasonable assurance that the assets are safeguarded and that reliable financial information is available on a timely basis. The system includes formal policies and procedures and an organizational structure that provides for appropriate delegation of authority and segregation of responsibilities.

The Board of Directors is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal controls. The Board of Directors reviews and approves the financial statements.

The financial statements have been audited by the Office of the Auditor General of Ontario. The Auditor General's responsibility is to express an opinion on whether the financial statements are fairly presented in accordance with Canadian public sector accounting standards. The independent auditor's report, which appears on the following page, outlines the scope of the Auditor General's examination and opinion.

INDEPENDENT AUDITOR'S REPORT

*To the Ontario Food Terminal Board
and to the Minister of Finance*

Opinion

I have audited the financial statements of the Ontario Food Terminal Board (OFTB), which comprise the statement of financial position as at March 31, 2019, and the statements of revenue and expenditures, changes in net assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the OFTB as at March 31, 2019 and the results of its operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

I conducted my audit in accordance with Canadian generally accepted auditing standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the OFTB in accordance with the ethical requirements that are relevant to my audit of the financial statements in Canada, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the OFTB's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the OFTB either intends to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the OFTB's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the OFTB's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the OFTB's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause OFTB to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Susan Klein, CPA, CA, LPA
Assistant Auditor General

The accompanying notes are an integral part of these financial statements.

Ontario Food Terminal Board

Notes to Financial Statements

March 31, 2019

1 Nature of operations

The Ontario Food Terminal Board (the Board), a government agency of the Province of Ontario, was incorporated without share capital pursuant to the Ontario Food Terminal Act (the Act), R.S.O. 1990, c O.15 and Ontario Regulations 871, 872 and 65/09 made under the Act. The objectives of the Board include the operation of a wholesale fruit and produce market and the acquisition and operation of facilities for the transportation and handling of fruit and produce. To meet these objectives, the Board leases land and buildings to wholesalers and growers. The Board is a not-for-profit Board Governed Provincial Agency and is exempt from income taxes.

2 Summary of significant accounting policies

Basis of accounting

The financial statements of the Board are prepared by management in accordance with Canadian public sector accounting standards (PSAS) for government, including the standards that apply to government not-for-profit organizations.

The net assets of the Board are presented and accounted for as follows:

- unrestricted – includes the cumulative net assets of operating revenue over expenditures; and
- invested in capital assets – represents the net investment in the Board's capital assets, as described in note 4. Amounts required for the purchase of capital assets are transferred from unrestricted net assets to invested in capital assets.

Revenue recognition

Revenue arising from rent, cold storage, toll fees and buyer access tolls is recognized as revenue as services are provided, and the amount is estimable and collectibility is reasonably assured.

Deferred revenue is generated from the prepayment of rent, stall rentals, parking rentals, buyers' access cards and office rentals and is recognized as revenue on a straight-line basis over the rental term.

Deferred capital contributions are externally restricted and are deferred and amortized into revenue in accordance with the amortization policy applied to the related capital asset recorded.

Other income primarily consists of interest income and billboard rent revenue and is recognized as revenue when earned and the amount is estimable and collection is reasonably assured.

Expenditures

Expenditures are reported net of recoverable sales tax.

Ontario Food Terminal Board

Notes to Financial Statements

March 31, 2019

Cash

Cash consists of cash on hand that is held with a major financial institution.

Investments

Investments are guaranteed investment certificates (GICs) and are carried at amortized cost in the financial statements. Investment income is included in the statement of revenue and expenditures as other income.

Capital assets

Capital assets are recorded at cost. Amortization of capital assets is provided on a straight-line basis over their estimated useful lives as follows:

Land improvements	10 to 30 years
Buildings	10 to 40 years
Equipment	5 to 20 years
Parking deck and retaining wall	4 to 40 years

Amortization of construction-in-progress will commence when construction is substantially complete and the asset is put into use.

Impairment of long-lived assets

The Board reviews the carrying amounts, amortization and useful lives of its capital assets regularly. If the capital asset no longer has any long-term service potential to the Board, the excess of the net carrying amount over any residual value is recognized as an expense in the statement of revenue and expenditures.

Financial instruments

The Board initially measures its financial assets and financial liabilities at fair value. The Board subsequently measures all its financial assets and financial liabilities at amortized cost.

Financial assets measured at amortized cost include cash, investments and accounts receivable. Financial liabilities measured at amortized cost include accounts payable and accrued liabilities and demand loans.

If there is an indicator of impairment, the Board determines whether there is a significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount the Board expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value. Impairments are recognized through the use of an allowance account, with a corresponding charge in the statement of revenue and expenditures.

Ontario Food Terminal Board

Notes to Financial Statements

March 31, 2019

Measurement uncertainty

The preparation of financial statements in accordance with PSAS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Ontario Food Terminal Board

Notes to Financial Statements

March 31, 2019

During the year, \$9,438,571 (2018 – \$846,654) was transferred from construction-in-progress to buildings in the amount of \$4,568,936 (2018 – \$26,204); to land improvements in the amount of \$4,838,689 (2018 – \$122,245); to the parking deck in the amount of \$nil (2018 – \$698,205); and to equipment in the amount of \$30,946 (2018 – \$nil).

5 Demand loans

Demand loans comprise the following:

	2019 \$	2018 \$
Demand loan, non-revolving with a maximum borrowing amount of \$1,125,000 (2018 – \$1,200,000), bearing interest at prime plus 1/4%, monthly repayments of \$5,000 principal plus interest; this loan is primarily used to finance capital expenditures	1,125,000	1,185,000
Demand loan, non-revolving with a maximum borrowing amount of \$2,681,642 (2018 – \$3,924,920), bearing interest at prime plus 1/4%, monthly repayments of \$24,378 principal plus interest; this loan is primarily used to finance capital expenditures	2,681,641	2,974,178
Demand loan, non-revolving with a maximum borrowing amount of \$7,847,731 (2018 – \$9,800,000), bearing interest at prime plus 1/4%, monthly repayments of \$40,622 principal plus interest commencing no later than April 30, 2015, interest only monthly payments during construction of capital assets; this loan is primarily used to finance capital expenditures	7,847,731	8,335,673
Demand loan, non-revolving with a maximum borrowing amount of \$1,576,935 (2018 – \$2,000,000), bearing interest at prime plus 1/4%, monthly repayments of \$8,344 principal plus interest; this loan is primarily used to finance the cost for replacement of refrigeration equipment	1,576,934	1,677,058
Demand loan, non-revolving with a maximum borrowing amount of \$4,000,000, bearing interest at prime plus 1/4%, monthly repayments of \$16,667 principal plus interest; this loan is solely used to finance the cost for the compactor station and cold storage receiving area	1,000,000	-
	<u>14,231,306</u>	<u>14,171,909</u>

All of the above loans are supported by a letter of undertaking not to sell, further mortgage or otherwise encumber the property located at 165 The Queensway.

As at March 31, 2019, there were externally imposed debt covenants with respect to the Board's external bank loans. All covenants were complied with as at March 31, 2019.

The Board also has access to a \$1,000,000 demand revolving facility bearing interest at the prime rate and can be used for the daily operating and working capital needs of the Board. As at March 31, 2019, the Board had utilized \$nil (2018 – \$nil).

Ontario Food Terminal Board

Notes to Financial Statements

March 31, 2019

6 Deferred capital contributions

In 2011, the Board received a one-time capital contribution of \$500,000 from the Ontario Ministry of Agriculture, Food and Rural Affairs. The related asset was substantially complete and ready for use in fiscal 2015, at which point the Board commenced amortizing the capital contribution into revenue and is included in other income in the statement of revenue and expenditures.

	2019 \$	2018 \$
Balance – Beginning of year	445,860	457,937
Less: Amortization to revenue during the year	12,079	12,077
Balance – End of year	<u>433,781</u>	<u>445,860</u>

7 Self-directed Registered Retirement Savings Plan (RRSP)

The Board offers its full-time employees a self-directed RRSP, whereby employees make a minimum contribution of 5% of their pay. The Board contributes a matching amount up to a maximum of 6% for employees with over 15 years of service and 5% for all other eligible employees. The expense for the year under this RRSP was \$93,475 (2018 – \$92,989) and is included in salaries and benefits.

8 Commitments

The Board leases land for vehicle parking space and office equipment under operating leases. The future annual minimum lease payments are as follows:

	\$
2020	83,184
2021	82,237
2022	79,828
2023	79,828
2024	59,871
	<u>384,948</u>

9 Financial instrument risk

The Board holds instruments that are subject to credit risk, liquidity risk and interest rate risk.

Credit risk

Credit risk on financial instruments is the risk of a financial loss occurring as a result of default or insolvency of a counterparty on its obligations to the Board. The cost of the assets as presented in the statement of financial position represents the maximum credit risk exposure as at the date of the financial statements. The Board places its cash in interest bearing accounts and instruments insured (up to a certain limit) by a Canadian chartered bank, or in highly liquid investments that are readily convertible into known amounts of cash.

Ontario Food Terminal Board

Notes to Financial Statements

March 31, 2019

The Board, in the normal course of business, is exposed to credit risk from its customers. This risk is mitigated by thorough and rigorous credit approval procedures.

As at March 31, 2019, the following accounts receivable were past due but not impaired:

	30 days \$	60 days \$	90 days \$	Over 90 days \$
Accounts receivable	261,630	162,443	2,775	6,534

Management believes the Board's credit risk is low.

Liquidity risk

Liquidity risk is the risk an entity will encounter difficulty in meeting obligations associated with financial liabilities as they come due. To manage liquidity risk, the Board monitors its operations and cash flows to ensure sufficient resources exist to meet its obligations. All of the Board's investments are considered to be readily realizable, as they can be quickly liquidated at amounts close to their fair value in order to meet liquidity requirements.

The table below is a maturity analysis of the Board's financial liabilities as at March 31, 2019:

	Up to 6 months \$	More than 6 months up to 1 year \$	More than 1 year up to 5 years \$	More than 5 years \$	Total \$
Accounts payable and accrued liabilities	1,547,597	-	-	-	1,547,597
Demand loans	471,264	471,264	3,770,112	9,518,666	14,231,306
	2,018,861	471,264	3,770,112	9,518,666	15,778,903

The demand loans' maturity analyses above represent scheduled repayments.

Interest rate risk

Interest rate risk arises from fluctuations in interest rates and the degree of volatility of those rates. The Board has demand loans that bear interest based on the prime interest rate; therefore, the Board is exposed to interest rate cash flow risk as the required cash flows to service the obligations will fluctuate as a result of changes in market rates.

Notes to Financial Statements

March 31, 2019

10 Contractual rights

Contractual rights are rights to economic resources arising from contracts or agreements that will result in revenues and assets in the future. The Board's contractual rights arise because of contracts entered into for the lease of land and buildings to warehouse unit tenants. The leases end at different points in time with the longest effective until 2044, and the amount of future revenue is equal to the actual amounts expended by the Board for taxes, operating and maintenance expenses and other costs and charges relating to the upkeep and operation of the rented units under lease.

11 Comparative figures

Certain prior year figures have been reclassified to conform to the current year's financial statement presentation.
